Light soilage, walls, ceramic tiles: Dilute 20ml per 5 litres of hot water.

Mop or wipe surface. Always rinse with clean water.

DILUTION RATES FOR JANGRO WASHROOM CHEMICAL PRODUCT RANGE

Jangro Sink & Drain Maintainer

Waste build up & regular maintenance: Pour 250ml into drain or down sink, 1 or 2 times a week.

Blockage: Pour 500ml slowly into drain or down sink and allow up to 20 mins for the blockage to clear. Alternatively leave overnight. Flush drain or sink with hot water.

Please note: After using this product do not use a plunger as product may still be present in the outlet pipe.

Jangro Drain Solution

Shake container well before opening. Remove excess water and pour 50ml directly into sink or drain opening. Add about one cupful of warm (not hot) water to activate unblocker. Leave for a minimum of 30 mins (overnight if possible). Flush with hot water to remove residues. Repeat is necessary.

To ensure trouble, free, odourless outlet pipes pour 50ml into opening once a week. Flush away traces of bleach, disinfectant, caustic or acid before using as these chemicals reduce the action of the enzymes.

Enviro Daily Toilet Cleaner

Toilet Bowls and Urinal: Apply undiluted to the urinal, toilet bowl and under the rim. Leave for a few minutes and rinse with clean water. Stubborn stains may need agitation with a brush.

Sinks, baths and tiles: Apply undiluted, wipe with a damp cloth and rinse with clean water.

Enviro Foaming Washroom & Toilet Cleaner

General Cleaning: Dilute 100ml per 5 litres of warm water. Mop or wipe surface.

Removing limescale, body fat and stubborn soil: Use undiluted or dilute up to 1:10 with water depending on application, in a bottle fitted with a foaming spray. Spray surface and wipe clean with a damp cloth.

NOT FOR USE on cast iron enamelled baths, marble or limestone. We suggest using our Germicidal Washroom Cleaner.
