

i-scrub 30EM Pro

Orbital power
meets mobility

Advanced orbital technology

Quick release handle

Change the length of the handles to suit the work conditions. Use the short handle for precision and an ergonomic position. The long handles can be used to move over obstacles.

Single-disc scrubbing has never been easier. Advanced orbital technology is based on 1650 RPM which simulated an orbital movement with no sideforces, so everybody can operate it without training. The i-scrub 30EM is available in two versions: the Pro version with a detachable power cord and the B version is battery powered. The i-scrub 30EM is a nifty machine with a lot of power. The water tank on top ensures you can mix in your chemicals to perfection. To prevent damage to furniture and walls, we've created a rubber bumper for you to work freely!

Cord or cordless?

The battery-powered i-scrub 30 EM gives you flexibility to use it when and where you want to. With only one extra i-power battery you can work 24/7.

Easy transport

The wheels make it easy to take the i-scrub 30 EM pro / B with you everywhere you go.

Key features

Foldable wheels

When the wheels are hindering your work just fold them.

Closed off cover

The sealed cover design protects the engine from exposure to water. It also adds an extra protective layer to the i-scrub 30EM.

Aluminum diecast

Heavy grade aluminum diecast housing adds resistance and weight to the machine, increasing the brush pressure, to clean more in less time.

Detachable solution tank

The solution tank is easily detached with a single pull. This makes it easy to fill, refill and clean the tank while on the job.

Centralized controls

Centralized controls are located in the head of the machine. All your regulators, switches and controls are within the reach of your fingertips.

Soft grips

The soft grips of the machine guarantee superb control and excellent ergonomics for the user.

Technical specifications

i-scrub 30EM Pro

Application	Scrub floors, carpets
Brush speed (orbital movement)	1650 RPM
Effective area of operation	30 cm ø
Size machine (l x w x h)	27 x 23 x 120 cm
Weight of product	13.5 kg
Weight in box	17.5 kg
Cable length	1100 cm
Clean water tank	1.7 L
Material machine	Zinc-alloy, Steel & Plastic
Voltage & frequency (V)	230 V
Motor power	250 W
Sound level	72 dBA on hard floor & 80 dBA on carpet

i-scrub 30EM Pro B

Application	Scrub floors, carpets
Brush speed (orbital movement)	1650 RPM
Effective area of operation	30 cm ø
Size machine (l x w x h)	27 x 23 x 120 cm
Weight of product (without batteries)	12.6 kg
Weight of product (with batteries)	14.4 kg
Clean water tank	1.7 L
Battery spec i-power 9	24 V 8.8 Ah
Battery spec i-power 14	25.2 V 14 Ah
Run time i-power 9	75 minutes
Run time i-power 14	119 minutes
Charger type	Off-board
Charger	110-240V, 50/60Hz
Material machine	Zinc-alloy, Steel & Plastic
Voltage & frequency (V)	230 V
Motor power	250 W
Sound level	72 dBA on hard floor & 77 dBA on carpet
